

تيراميليووس
TerraMelius
Ground Improvement Solutions

Pre-Qualification Document

INTRODUCTION

INTRODUCTION

Experts in highly specialized ground improvement solutions across the Middle East. Our core competencies give us an edge in this niche market and help clients add value to their business.

Our specialized solutions offer more effective alternatives to the much expensive deep foundations techniques, traditionally used to support surface structures.

We have a wealth of expertise, experience, technology, specialized equipment and strong financial backing to undertake projects of large size in the GCC.

VISION

‘To be a Leader in Ground Improvement across the Middle East’

OUR SOLUTIONS

- INNOVATIVE.** We strive to provide the most innovative and advanced ground engineering solutions.
- COST EFFECTIVE.** With shrinking margins in these testing times, we tailor our solutions to minimize the cost wherever possible for our clients, adding value to their projects.
- TIMELY.** Time is of the essence and delays can have a detrimental effect on the client and project completion. Therefore, we offer solutions that can be executed in short span of time, complying with the project deadlines.

STRATEGY

We pride ourselves in offering solutions that are tailor-made to our client’s needs. Our solutions are backed by highly specialized Equipment and Workforce. Our commitment to providing innovative, cost effective and timely solutions is fundamental to our core strategy, without compromising health, safety and quality.

‘Through this strategy, Terra Melius will strive every day to grow and add value to its clients’

CORE VALUES

OUR TEAM

OUR TEAM

MANSOOR AHMED ABDULLA - PARTNER

Mr. Mansoor brings his extensive experience of working in various Government organizations, adding value and outperforming others with his sheer determination, perseverance and vision. He is a driving force in Terra Melius and along with our Management, is focused on creating value for our clients.

Mr. Mansoor is a proud Emirati from Abu Dhabi. He is thrilled and ever so keen on continuing the mission of his forefathers.

AHMAD MUJTABA - CEO

Ahmad has worked in one of the top engineering companies in the world, Bauer International. He worked as a Cost Controller for the UAE region gaining insights and valuable experience in the construction industry. Moreover, he has valuable experience in strategy and management from Telford Offshore and Americana respectively.

A graduate in Accounting & Finance from University of Exeter, United Kingdom, Ahmad is a Pakistani National based in UAE.

KHALID ANSARI - MANAGING DIRECTOR

Khalid has over 33 years of hands-on experience working with worlds best Geotechnical & Engineering Contracting organizations like Keller Grundbau, Bauer International, Swiss Boring (Trevi Group). He has worked in all GCC countries in top management positions. He also worked for the prestigious WORLD BANK on a multi-million-dollar project in Pakistan.

Besides bachelor's in civil engineering, Khalid has Masters in Geotechnical & Foundations Engineering from ASEAN institute of Technology, Thailand.

HALEEMA RAZA – BUSINESS DEVELOPMENT

Haleema brings with her a total of 13 years of vast work experience, across industries. Haleema has 6 years' experience focusing on business development and sales at a global scale, of which 4 years primary focus was targeted in the MEA region. During this time, Haleema has worked on signing multimillion deals with some of the largest Fortune 500 companies.

Haleema is an MSc graduate in Physics and Engineering from UCL.

SHAHID RAJA – DESIGN MANAGER

Mr. Shahid has a long and distinguished career that spans over 25 years. For most of his career he has worked with Keller Grundbau GmbH mainly in Middle East and Far East regions and served them as General Manager in the UAE. Besides having the managerial experience, he has vast and in-depth knowledge of various ground improvement techniques including design software's like Greta, Stone C, DC Vibro and Liquefy Pro etc.

Mr. Shahid has a bachelor's in civil engineering from NED University, Karachi – Pakistan.

SHAHID ULLAH KHAN – PROJECTS MANAGER

Shahid has over 20 years' experience in the field of ground engineering. He has worked with world's leading ground engineering contractors like Bauer International, across the GCC countries. He has managed multiple sites involving ground improvement works. Shahid is an integral part of our site team. He has completed diploma in civil engineering from Pakistan

Shahid has a bachelor's in civil engineering from University of Peshawar, Pakistan.

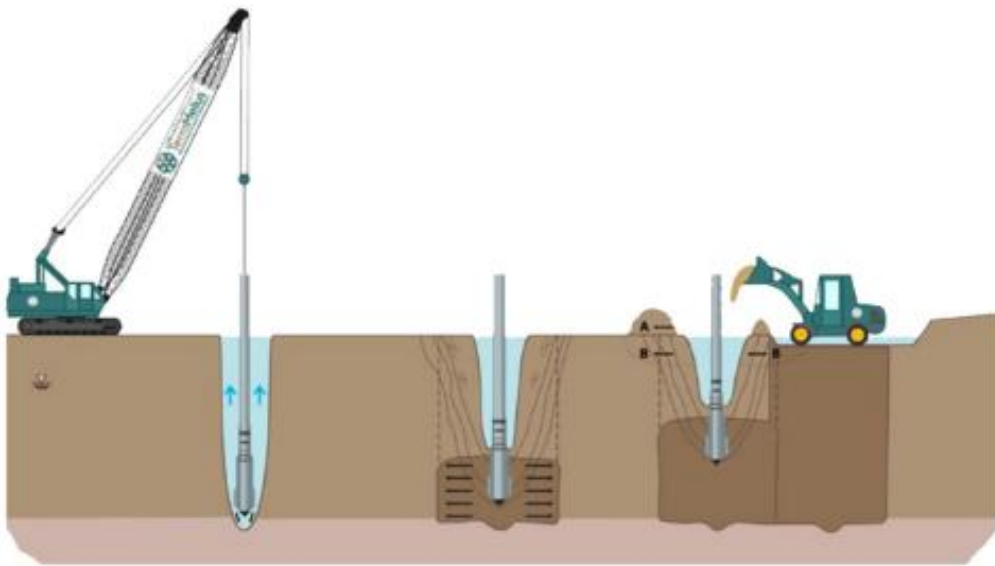

SPECIALIZED TECHNIQUES

OUR SPECIALIZED TECHNIQUES

VIBRO COMPACTION

Vibro Compaction is a technique that compacts granular soils and rearrange the soil particulars into a denser state. The compaction is attained using depth vibrators, typically suspended from a crane.

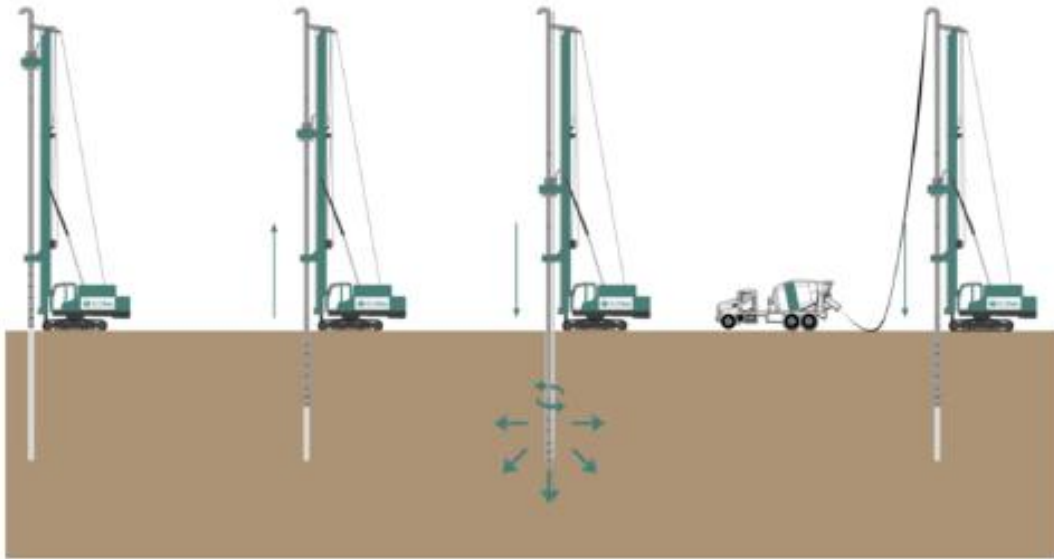

VIBRO REPLACEMENT

In this technique, load bearing columns are constructed that are made from gravel or crushed stones. The improved ground comprised of the stone columns and the surrounding soil will act as a single unit, capable of taking structural loads safely at the shallow depths. Stone columns are also used to mitigate the risk of liquefaction during seismic activity.

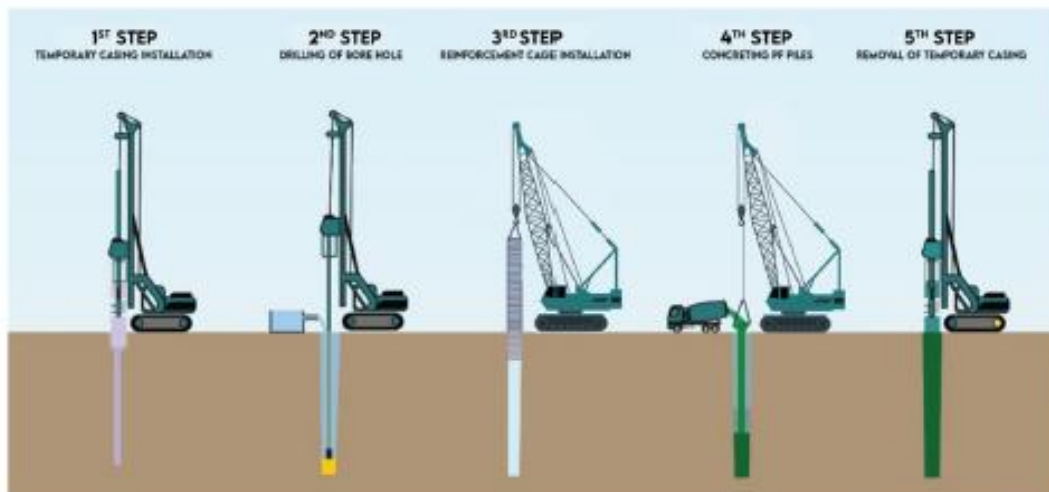

RIGID INCLUSIONS

The increase of bearing capacity and settlement reduction are achieved through the reinforcement of the soft or loose soil layers using rigid inclusions. The scheme details a load sharing system combining the existing soil capacity and the stiffer rigid inclusions to ensure compliance with project specifications.

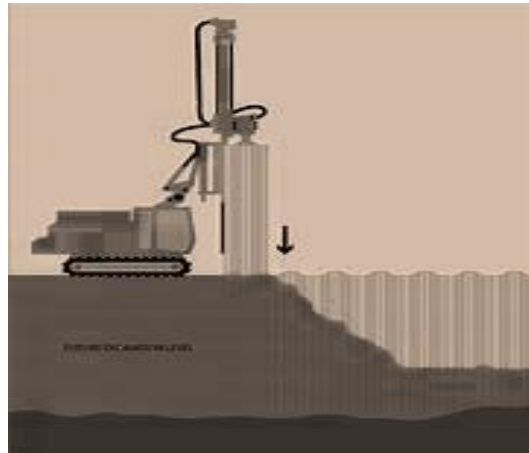

PILES CONSTRUCTION

Piles foundations is used when the structure loads are very high and the soils at shallow depths are not suitable to take that loads without undergoing excessive settlement. Different types of piles are in used , world wide to transmit the heavy loads to deeper depths safely. Most common type of piles used in this part of the world is , Bored cast in place place piles.

SHEET PILES

Sheet piling retains soil, using steel sheets with interlocking edges and is applied using both vibratory and vibration-free installation rigs. It helps with immediate barrier to prevent soil loss and sloughing during excavation and permanent sheet piles have long lasting service life.

DEEP WELLS DRILLING

Deep wells are used for two purposes around the world. One for water supply for domestic use or for dewatering the site to support dry deep excavation. Deep wells can be drilled to any design depth, using rotary method, either use full length temporary casings (or till the hard stable strata, to avoid collapsing of loose material during drilling. Or use sufficient water head inside the short temporary casing to avoid collapse)

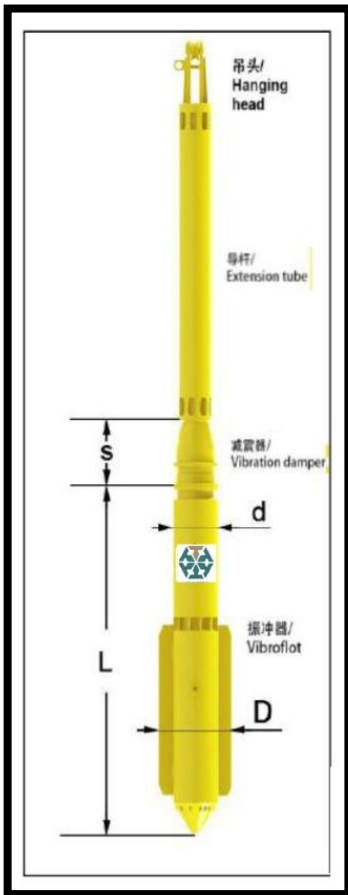

EQUIPMENT

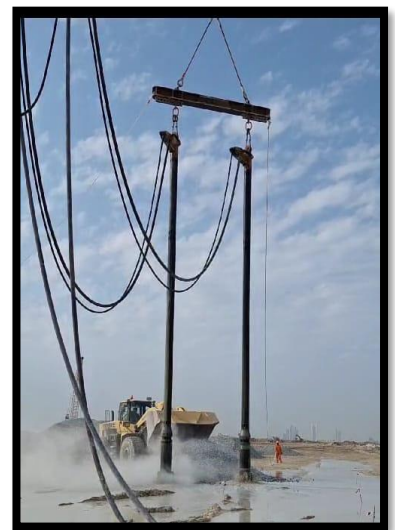

MACHINERY & EQUIPMENT

Thirty (30) Vibro Units in GCC with all Supporting Equipment's.

POLICIES

QUALITY POLICY

Terra Melius extends its expertise in highly specialized ground improvement solutions to meet its clients' requirements - ensuring quality and integrity.

Terra Melius is proud to hold Quality at the very heart of its values. A foundation that helps build high credibility companies, promising to maintain highest standards and integrity leading to efficient performance and results for the clients.

We seek to achieve highest quality standards in all aspects of our work. Our ethos of keeping matters simple, transparent and effective brings high quality results that are meaningful, objective-driven and tangible. Our value system gives birth to greater process and project ownership which transcends into every member of the company ensuring the client objectives are met with complete sincerity, expertise, knowledge-base and professional enthusiasm. As we accelerate and grow in the market, we believe deeply in our Quality Management system that continuously records, maintains and generates areas of improvement in forthcoming projects. This is how Terra Melius ensures that there is strictly no compromise on Quality of planning, execution and overall fulfillment of expectations.

Our Value system strongly puts forward Employee excellence, Client Satisfaction, Innovation, Sustainability and continuous learning to improve quicker than ever. These are strong pillars that provide a foundation for us to build on and not just create performance benchmarks, memorable appreciation from clients but a Legacy for the region we operate in.

AHMAD MUJTABA
CEO

ENVIRONMENTAL POLICY STATEMENT

Terra Melius is a socially aware and responsible company that is fully committed towards minimizing adverse effects of work related activities on the environment.

Terra Melius adheres to the international standards and its certification to ISO 9001:2015 by:

- Taking into assessment all possible or potential impacts on the environment resulting in from work-related activities.
- Adhering to existing legislation
- Join hands with partners, clients and associated parties to reduce or minimize any impact on the environment.
- Proactively planning to keep environmental protection at the core of our company values to ensure minimal-to-no adverse effect is added to the overall economic, social and communal health.
- Optimization of resources like Energy, Raw material, functional equipment and water to lower wastage and deployment of re-cycling practices to effectively manage the residual.
- Curtailing and smartly managing noise pollution, wide-spread dust and fatal impact of greenhouse gases from engagement/activities.
- Engaging and joining forces together with industry experts on environmental safety, well-being to create pragmatic solutions to protect and restore.
- Continuously assessing concurrent practices to identify areas causing even the slightest of contamination to the environment and ensuring safety at all times.
- Learning and developing our methods working closely with environmental protection authorities and enforcement agencies.
- Establish excellent response rate to complaints from third parties or affected.
- Creating smart monitoring and recording systems helping the company investigate any kind of adverse effect onto the environment due to company's activities and a quick solution to ensure minimal-to-no-recurrence.
- Charting and generating comparisons to company's environmental performance annually.
- Training and developing employees towards building greater understanding and importance of protecting and restoring the environment.
- Effective communication of environmental protection values across the company to create deeper importance of the subject matter.
- Ensuring this policy statement can be furnished upon interested party's request.
- Ensuring that the policy statement is read, acknowledged and well understood by all relevant parties and is carefully reviewed every year.

OCCUPATIONAL HEALTH AND SAFETY POLICY NOTE

Terra Melius extends its expertise in highly specialized ground improvement solutions to meet its clients' requirements - ensuring quality and integrity.

We comprehensively understand our responsibility to comply with health and safety, its requirements and obligations as a certified company to ISO 14001:2015. It is our foremost obligation to:

- Provide adequate resources to properly maintain the health and safety protection functions of the company.
- Provide method statements and risk assessments and review as may be required.
- Provide and maintain operating procedures from "industry-best-practice" that eliminate Occupational Health and Safety hazards and significantly reduce health risks.
- Provide arrangements for safe use, handling, storage and transport of articles to ensure pertinent functionality to the assignment that is of minimal-to-no-risk to health and safety of the employees.
- Provide employees with information, training material and dissemination of practice and supervision as is necessary to maintain their safety and health at work and of others around them.
- Democratizing OHS matters through participation and meaningful inclusion of the workers.
- Establish processes and practices through target setting and clear objectives to bring continuous improvement to Occupational Health and Safety of the employees.
- Establish health and safety checks and audits where required on a regular basis.
- Ensure that all machinery, plant and equipment are well maintained and in a safe condition.
- Make suitable provision and arrangements for welfare facilities at work to reduce risk of compromised health and safety of the employees.
- Create a safe place for work, access and egress areas are safe and risk-free.
- Monitor the performance of safety to comply with the local regulations.

Employees expected to adhere by the following:

- Responsibly take care of their own health and safety and of others who may directly or indirectly be affected by their actions or neglect.
- Extend utmost cooperation to their employer in order to fulfil their statutory duties with respect to health and safety.
- Ensure there is no damage (deliberate or due to neglect) caused to equipment provided by the employer for the health and safety of the employees.
- Maintain integrity of PPE which is provided to them by the employer.
- To work to and with the methods and instructions issued by the company.

From: Menard Middle East Contracting Co. LLC
P.O Box 130269, Abu Dhabi,
United Arab Emirates To: To Whom It May Concern

Our Ref: MME22033-LTR-020-WW Attn: Khalid Salman Ansari
Managing Director

Date: 23rd Sep 2022 Cc:

Project: Hudairiyat Island Priority Development Area, Abu Dhabi –
Ground Improvement Works.

Subject: TO Whom It May Concern.

This is to certify that M/S. Terra Melius Piling & Foundations Contractor LLC are working as our sub-contractor at Al Hudairiyat Island development project in Abu Dhabi, United Arab Emirates.

As of now they have completed nearly 70,000lm of Stone columns construction in about two and half months time, using 2 units in double shifts from middle of July 2022.

They are still working for us on the above-mentioned project.

We are entirely satisfied with their performance at site and their professionalism and attitude toward the work.

This Certificate has been issued on their request, with no liability on our part.

Yours faithfully,

For and on behalf of Menard Middle East Contracting Co. L.L.C

William Wagdy

TERRA MELIUS PILING & FOUNDATION CONTRACTING L.L.C

Subject : Vendor Appointment

Dear Vendor,

NMDC Dredging & Marine after going through your company profile has accepted and has successfully enrolled your existing profile in the NMDC Group Vendor Database. Your Vendor Registration Code is as Follows. Please quote your Vendor Number in all your Future Correspondence with NMDC Group.

Vendor Name	Vendor Code
TERRA MELIUS PILING & FOUNDATION CONTRACTING L.L.C	9438

Category	Category Description
6.018.006	SERVICE/CONSTRUCTION & CONTRACTING/PILE WORKS

Payment terms - The payment terms offered by the applicant should correspond with the NMDC Group standard payment terms of sixty (60) days after receipt of Invoice for Local Suppliers and for Foreign Suppliers thirty (30) days after receiving and acceptance of the shipment in good condition by NMDC Group.

Our Quality Control Procedure mandates that periodically we survey and audit our vendors with whom we conduct business.

Note - When the status of your company changes from the time of registration, you are kindly required to inform NMDC Group immediately in writing. These changes include:-

- Renewal of Trade License, ISO and Chamber of Commerce Certifications.
- Change of name due to merger or acquisition.
- Change in Business address/Location.
- Change in Telephone & Fax Numbers
- Or any litigation in which the Vendor is a party, criminal convictions, civil judgment, and financial impropriety.

The following submission shall include all relevant documentation with regards to the changes. Please note that failure to inform NMDC Group may risk in suspension or removal of your company from our Vendor Database.

In order to maintain your Vendor profile in our Vendor database, you are kindly requested to confirm the information submitted to NMDC Group every Twelve (12) months by updating the Vendor Registration Form and resubmitting it with an updated list of requirement as detailed above.

Documents can be forwarded to Email: update@nmdc-group.com (clear pdf format only).

Kind regards,
For and On Behalf of
NMDC Dredging & Marine

Mohammed Al Falahi

Recommendation Letter for Subcontractor

Dear Sir/Madam,

M/s. Terra Melius Piling Foundations Contracting LLC was subcontracted to design and execute ground improvement works at our Moro Warsan Data Center site in Warsan, Dubai.

Throughout the project, we found them to be highly professional in all aspects of our coordination. We appreciate their proactive approach, which contributed significantly to the smooth progress of work on site.

Additionally, we were impressed with their commitment to maintaining high Health & Safety standards, which were consistently demonstrated throughout the duration of the project.

Based on our positive experience, we strongly recommend M/s. Terra Melius for similar works and look forward to collaborating with them on future projects.

Best Regards,
For MDS Site & Power Solutions L.L.C

Rabih Ghaleb
Sr. Civil Engineer
